PowerSafe

Guarantees against short circuit, and over-charging for your portable battery

Energizer QE10000CQ (Qi Flashing) - 10000mAh

Description

Qi wireless Power Bank for iPhones, Android Phones & More

Energizer QE10000CQ is a Qi wireless charging power bank with 10000mAh capacity. Set your smartphone down on the power bank and enjoy instant wireless charging with the 360° wireless charger, which delivers up to 10W rapid power to your smartphone. The USB-C PD 2.0 port provides fast charging to your iPhone 8, iPhone 8 Plus & iPhone X. Nevertheless, the Quick Charge 3.0 technology lets you charge 4x faster than a standard power bank. Energizer PowerSafe Management always protects you against short circuit, overcurrent, overcharge and overdischarge.
